Thank you for choosing to register your child in the Bicycle Transportation Alliance's (BTA) award-winning Bike Safety Education (BSE) course. In this course the BTA's Bicycle Safety Ambassadors will teach your child traffic safety through classroom activities and on-the-bike skills practice. This course doubles as a training as well, giving our Ambassadors an opportunity to practice important teaching and classroom management skills that will allow them to successfully teach BSE to thousands of students year-round in Portland Metro schools. All bike safety students will learn skills such as helmet use, hand signals, traffic signs, maneuvering through intersections and out of driveways and proper road etiquette.

The BTA emphasizes safety in all of our programs in order to keep every child as safe as possible. Bicycle riding will occur on neighborhood streets, therefore, all activities are potentially dangerous. Participants must agree to follow the rules set out in class, on school grounds, and on the rides in order to stay as safe as possible.

Bicycles are provided as part of this program. Participants who intend to use their own helmet must agree to have them inspected by BTA Ambassadors. The participant may be required to use equipment provided by the program if this is determined necessary.

The purpose of BSE is to teach safety and skills in an effort to reduce the risk of bicycle injuries. However all travel involves the chance of an accident that may result in serious injury or death. The BTA, volunteers, participants and parent helpers cannot eliminate the chance that a participant may be injured in spite of taking every effort to be safe. Participating families must assume any and all risks and hazards associated with this program by signing a release and waiver of rights contained below in exchange for being allowed to participate.

Additionally, photos are taken during class to document and promote our award-winning program, in signing this release you are agreeing to allow your child to be photographed. No personal information will be published with photos; the photographer owns the copyright for photos. Your signature waives any claims you may have based on any usage of photos or works derived there from.
